Hints:

Always begin your cross stitch in the centre of the fabric. Most of Dr Hartley's templates have a thin red line indicating the centre of the illustration.

Illustrations may be enlarged or reduced according to your project requirements.

Do all the half stitches of one row of one section first, before coming back and completing the row of cross stitches. (The reason for that is if you miscount, it is easier to unpick half stitches than whole stitches.)

Then come back to complete the cross stitches.

Finishing ideas for a Cross Stitch project:

Create an old-fashioned sampler.

Make a canvas framed picture.

Make a cushion cover.

Make a fancy banner.

Make a home-made birthday card.

Make a lampshade.

Make a teapot or coffee-mug cosy.

Stitch it onto your clothes.
